

InteliChart[®] | MOBILE Solutions

Patient Portal Access on Apple & Android Devices

For today's patients, mobile technology is an integral part of their daily lives. With the InteliChart Patient Portal apps, patients can have anytime, anywhere access to manage their healthcare.

The InteliChart Patient Portal apps provide a convenient mobile solution, so patients can:

Connect to Providers & Hospitals

Now patients can use one mobile app to connect to all their providers and hospitals.

Schedule Appointments

Patients appreciate being able to schedule their own appointments and receive driving directions from their mobile device.

Medication Refills

View medication lists and request a refill with a few simple clicks.

Reminders & Notifications

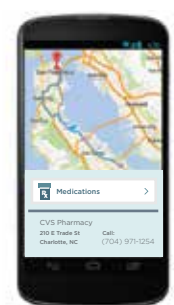

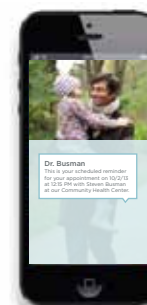

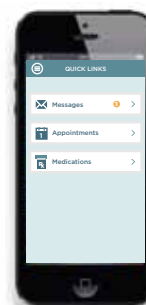

Whether it's an appointment reminder or a notification that a medication refill has been filled, patients will appreciate receiving mobile app notifications and text messages.

Secure Communication

Patients can send and receive secure messages with all their healthcare providers.

With the Patient Portal Mobile Platform, Your Patients Can:

- ✓ Request Appointments
- ✓ Send Messages
- ✓ Request Medication Refills

The future of healthcare is mobile.
With the IntelliChart Patient Portal,
you and your patients will be ready.

2014 ONC-CERTIFIED

The IntelliChart Patient Portal is fully certified by the Office of the National Coordinator for Health Information Technology (ONC).

Receive Test Results

Now patients can receive their test results conveniently while they are on the go.

ADDITIONAL BENEFITS:

Connected Health Platform

The IntelliChart mobile solution is deployed atop the IntelliChart Connected Health Platform, allowing patients to connect to all providers through one app.

Acute and Ambulatory Systems

The IntelliChart Patient Portal has extensive connectivity to both acute and ambulatory EHRs via its custom API libraries.

Satisfy MU2 Requirements

Because the IntelliChart Patient Portal is ONC-certified, using the Portal will enable organizations to fulfill their Meaningful Use Stage 2 qualification standards and be eligible for Medicare and Medicaid EHR Incentive Payments.

2014 ONC-Certified

The IntelliChart Patient Portal is fully certified by the Office of the National Coordinator (ONC) for both inpatient and ambulatory use.
