InteliChart®
patient portal

Vendor-neutral | O

One Portal for Ho

Let your patients actively manage their own healthcare.

With the InteliChart Patient Portal, your patients can:

One Patient Portal for all Providers

Appointment Requests

Medication Refill Requests

Secure Messaging

Mobile Health

Features & Benefits

2014 ONC Certified
The InteliChart Patient Portal is fully certified by the office of the National Coordinator for Health Information Technology.

One Patient Portal for Patients
Now patients can connect to all their providers and hospitals through a single patient portal solution.

One Patient Portal for Hospitals
Health systems and hospitals can now deploy a single patient portal solution for all their hospitals and ambulatory practices.

Schedule appointments
Patients can schedule their own appointments through the Patient Portal, both online and through an Apple or Android app.

Make online payments
The Patient Portal makes it easy for patients to receive and pay their bills electronically.

2014 ONC-CERTIFIED

The InteliChart Patient Portal is fully certified by the Office of the National Coordinator for Health Information Technology (ONC).

A single solution that satisfies Meaningful Use requirements & gives patients a great experience.

Finally, a patient-portal technology that meets the needs of your hospital, practice and patients:

Embedded PHR
With InteliChart, our Personal Health Record (PHR) is part of the Patient Portal, providing a convenient view for patients to see all their healthcare data through one secure portal.

Aggregated Patient Data
InteliChart collects data from multiple acute and ambulatory information sources and then standardizes the data into one registry. This aggregated clinical data registry is what allows patients to see all their data through a single portal and also provides the platform for the InteliChart HIE.

Vendor-Neutral
Through our robust API platform, the Inteli-Chart Patient Portal integrates seamlessly with both acute and ambulatory EHRs, as well as HIE and ACO vendors.

ONC-Certified
The InteliChart Patient Portal is fully certified by the Office of the National Coordinator for Health Information Technology (ONC).

Satisfies Meaningful Use Requirements
Because the Patient Portal is 2014 ONC-certified, using the Patient Portal enables your organization to fulfill Meaningful Use Stage 2 requirements and become eligible for Medicare and Medicaid EHR Incentive Payments.

**Patient Portal Today –
Care Coordination Tomorrow**
InteliChart provides hospitals and physician practices with today's leading patient portal technology, while providing the infrastructure for tomorrow's initiatives such as health information exchange, care coordination and ACO solutions.

Other **InteliChart**® Slicks

We offer many solutions to fit all your needs.

Reseller

InteliChart resellers can offer their customers the same feature-rich, technolog-ically advanced solutions sold by InteliChart, but branded as their own. For companies seeking additional revenue without the need to develop new products, the InteliChart reseller program can be the perfect choice.

HIE

The InteliChart health information exchange (HIE) platform aggregates health data into one simple, standard format, while giving providers complete access to a patient's medical records at every point in the care cycle. Like the Patient Portal, the HIE platform is vendor-neutral and ONC-certified.

OEM Partner

As an InteliChart OEM Partner, vendors no longer need to build every component of their solutions. Instead, vendors can incorporate InteliChart technology into their products while keeping their own branding.

Mobile

With the InteliChart Patient Portal now available on mobile devices, patients have anywhere, anytime access to their healthcare, including the ability to update their health records, stay in touch with their providers, and schedule appointments—all with the convenience of their mobile device.
