

InteliChart Certified Health IT

Standardized FHIR Compliance Document 2024

Developer Name: InteliChart
Product Name and Version: InteliChart Patient Portal
Version: 3.5
CHPL Product Number: 15.04.04.1722.Inte.35.00.1.170921
ONC-ACB Certification Number: 15.04.04.1722.Inte.35.00.0.170921
Relied Upon Software: InteliChart on FHIR v1.0

InteliChart on FHIR supports the [HL7® R4 First Normative Content \(4.0.1\)](#) version of the FHIR standards. Our implementation of the R4 version is an ongoing process, and we will continue to integrate additional resources and actions over time to enhance functionality and interoperability.

InteliChart certified products by the ONC-Authorized Certification Body (ACB) Drummond Group.

Capability	Description of Capability	Cost or Fees
170.315 (b)(10)	Electronic Health Information Export	Reference Mandatory Fees and Disclosures
170.315 (d)(1)	Authentication, Access Control, Authorization	Reference Mandatory Fees and Disclosures
170.315 (d)(2)	Auditable Events and Tamper-Resistance	Reference Mandatory Fees and Disclosures
170.315 (d)(3)	Audit Report(s)	Reference Mandatory Fees and Disclosures
170.315 (d)(4)	Amendments	Reference Mandatory Fees and Disclosures
170.315 (d)(5)	Automatic Access Time-out	Reference Mandatory Fees and Disclosures
170.315 (d)(6)	Emergency Access	Reference Mandatory Fees and Disclosures
170.315 (d)(7)	End-User Device Encryption	Reference Mandatory Fees and Disclosures
170.315 (d)(9)	Trusted Connection	Reference Mandatory Fees and Disclosures
170.315 (d)(12)	Encrypt Authentication Credentials	Reference Mandatory Fees and Disclosures
170.315 (d)(13)	Multi-Factor Authentication	Reference Mandatory Fees and Disclosures
170.315 (e)(1)	View, Download, and Transmit to 3 rd Party	Reference Mandatory Fees and Disclosures
170.315 (e)(3)	Patient Health Information Capture	Reference Mandatory Fees and Disclosures
170.315 (g)(2)	Automated Measure Calculation	Reference Mandatory Fees and Disclosures
170.315 (g)(4)	Quality Management System	Reference Mandatory Fees and Disclosures
170.315 (g)(5)	Accessibility-Centered Design	Reference Mandatory Fees and Disclosures
170.315 (g)(6)	Consolidated CDA Creation Performance	Reference Mandatory Fees and Disclosures
170.315 (g)(7)	Application Access-Patient Selection	Reference Mandatory Fees and Disclosures

InteliChart Certified Health IT

170.315 (g)(9)	Application Access-All Data Request	Reference Mandatory Fees and Disclosures
170.315 (g)(10)	Standardization API for Patient and Population Services	Reference Mandatory Fees and Disclosures

The Office of the National Coordinator for Health Information Technology (ONC) Health IT Certification Program is a voluntary initiative designed to encourage the nationwide adoption of Health IT standards. By certifying Electronic Health Record (EHR) systems and modules, the program ensures that these technologies meet the necessary criteria to comply with evolving Health IT standards and regulations. This certification offers buyers confidence that the EHR systems they choose will meet established standards for functionality, interoperability, and security.

InteliChart, as a certified Health IT developer, does not currently offer Predictive Support Interventions (DSI) as part of any of our Health IT modules, as defined by the Office of the National Coordinator (ONC) and the Assistant Secretary for Technology Policy (ASTP).

InteliChart will adhere to all applicable and mandatory standards for the Decision Support Intervention (DSI) criterion under (§)170.315(b)(11) by implementing the United States Core Data for Interoperability (USCDI), July 2020 Errata, Version 1 (v1) (incorporated by reference, see § 170.299). Our DSI will intended to enhance clinical decision support within EHR systems by supporting clinical workflows with interventions that consider the entire patient encounter, rather than isolated clinical elements to enable and empower the patients.

The adoption of these mandatory standards will be reviewed and updated on a quarterly basis and will be managed by this organization.

The compliance for this certification criterion was evaluated through an attestation. Functionality Testing and Risk Management Summary Information are not included in the current scope of this criterion. Our organization is not certified for (§)170.315(a)(9) Clinical Decision Support (CDS), and there are no references to this criterion on our publicly accessible website or in our marketing materials. In accordance with the standards set by the ONC, other federal agencies, and programs under the HTI-1 final rule, as well as to support the Certification Program and enable modular, extensible future updates, we have discontinued the use of year-specific editions in the naming convention of certification criteria.
